

100 Bishopsgate Tour

Thursday 11th October 2018
3:45pm for 4:00pm Start

100 Bishopsgate, London EC2

100 Bishopsgate is part of a mixed-use commercial development. The tower provides just over 900,000 sqft of net lettable space. The forty storey tower is anchored by five contiguous podium floors, in excess of 44,000sqft each, with 36 high grade office floors ranging from 19,000 to 25,000sqft, to suit any tenant requirement.

The form of the tower responds to the geometries of the site and context by transitioning from a parallelogram at its base to a rectangle at its top. In combination with contrasting facade textures and articulated junctions repeated rotationally around the building, this transition in form lends the tower a distinctive twisting dynamic.

A newly created half-acre public realm, enlivened with restaurant and retail amenities provides pedestrian access between Bishopsgate, St Mary Axe and Camomile Street to the north. Part of this Brookfield development includes 15 St Helen's Place whose north facade fronts the public realm.

Please reserve me a place for the 100 Bishopsgate Tour, on Thursday 11th October 2018
