Dear Mark, and fellow 100 Property Club Committee

We are truly delighted by humbled by the amazing donation of £30,000 that your committee and the 100 Property Club have made to the Lighthouse Project. This money will make a significant difference to the many many families who will make use of the Lighthouse Money Advice Service during this next year and beyond.

Whilst on this occasion you have not bought a physical item, such as the many mini-buses I understand that you have bought in the past, you have made sure that we can give hope and bring relief to lots of people, who are struggling with unmanageable debts, or are at risk of losing their homes.

It is a great privilege to see the emotional weight lift off someone's shoulders when they find out that someone will listen to them and is able to help them with their financial struggles, and to see them journey towards some kind of normality, and because of the funds that you have raised for is this year we know that we can continue to run our service for another 12 months.

The Lighthouse Money Advice team are especially grateful that you agreed to support them, and accordingly I have attached a photo of them expressing their appreciation.

Thank you for supporting us, we appreciate your thoughts and the donation that has been given. This will make a difference to so many people this coming year.

Kind regards

Yours Sincerely
